

Sytchampton Endowed Primary School

Media Consent Form

Name of Child:.....

To celebrate school events we regularly send press releases to local newspapers and also like to put photographs on the school website to give a flavour of the events taking place at school.

Please be advised that Sytchampton Primary School does not give permission for any photographs or filmed footage taken by parents, carers or visitors to be placed on any internet or social networking sites. We allow film and photographs to be taken at plays and events on the understanding that the above policy is respected.

We also have a Twitter feed to keep parents and the community informed of what is going on at Sytchampton Primary School - if you would like to follow us please search **@sytchampton**. The school cannot be responsible for the “suggestions” or “recommendations” part of the Twitter feed as this is not controlled by us. We are also obviously not responsible for any content or links that might be visible or accessible through parent/carer/follower profiles. We therefore strongly advise parents/carers to supervise their children’s access to Twitter and if you are going to show your child the feed, then please take a preview and check the “up to date news feed” beforehand.

To ensure we comply with parents’ wishes, please complete the form below and return to school: (please tick which is appropriate):

- I give permission for my child’s photograph, first name and/or work to appear in any school related digital or print media, or on school social media websites. PLEASE NOTE – full pupil names will only be used for newspaper features if required.
- I DO NOT give permission for my child’s photograph, first name and/or work to appear in any school related digital, print media or on any school social media websites under any circumstances.

If my personal circumstances change at any time I will inform the school accordingly.

Signed.....(parent/guardian)
